

# RAHUL RAJESH GOVALKAR

Technical Scrum Master • Agile Delivery Lead • CSM & AIPA™ Certified  
+91 8779692278 | rahulgovalkar.agile@gmail.com | linkedin.com/in/rahulgovalkar | Mumbai, Maharashtra

## PROFESSIONAL SUMMARY

Technical Scrum Master with 8+ years across BFSI, SaaS, and AI/ML domains, including 2+ years dedicated Agile delivery leadership. Applying servant leadership principles while managing 7 concurrent teams at Procentris India — designed Scrumban frameworks, drove 3x sprint velocity growth (7 to 22+ SP), and authored CEO-level quarterly reviews rated Green. CSM, AI for Scrum Masters micro-credential, and AIPA™. BFSI domain depth (State Street, BSE, MSCI) combined with full-stack development and AI tooling experience. Pursuing PGDM in IT Project Management (Welingkar, Sep 2026). Targeting Technical Scrum Master or Agile Delivery Lead role.

## PROFESSIONAL EXPERIENCE

**Scrum Master** | Procentris India Pvt Ltd Sep 2025 – Present

Mumbai, Maharashtra | SaaS, Fintech, Insurance/TPA, AI/ML, ERP Delivery

Sole SM across 7 concurrent Agile teams spanning matrimony SaaS, music rental e-commerce, QA automation, healthcare insurance/TPA, AI/ML, and precision manufacturing ERP.

### Delivery & Framework Design

- **Designed & implemented** bi-weekly Sprint + weekly release Agile Delivery Framework for a matrimony SaaS and a US music rental platform, replacing Asana/email workflows with Scrum boards, sprint buffers, and Tuesday release cadences
- **Implemented Scrumban hybrid model** for matrimony SaaS platform — WIP-limited Kanban lane for Runtime Mails alongside planned sprints, eliminating sprint blow-outs
- **Drove velocity from ~7 SP to 22+ SP (3x growth, Q3–Q4 2025)** on US music rental e-commerce platform via 10-SP data-driven buffer model (6-sprint historical analysis) and retrospective-led improvement
- **Managed 7 concurrent teams with zero missed ceremonies**; produced 256+ Daily Scrum reports, 69 Sprint Planning reports, and 43 Retrospective reports
- **Facilitated twice-weekly cross-project dependency scrums** for shared designer team — proactively removed cross-project blockers across matrimony SaaS, music rental & concurrent workstreams before sprint impact
- **Coordinated 4 concurrent teams serving a healthcare insurance/TPA platform** (admin, QA automation, AI/ML pipeline) — end-to-end sprint delivery for HIPAA & GDPR-compliant healthcare claims system
- **Executed 24-hour strategic pivot in Sprint 3** — resolved 71 critical security vulnerabilities in one sprint week; 100% planned commitments delivered

### Strategic Reporting & Stakeholder Management

- **Authored Q4 2025 Strategic Quarterly Reviews** for matrimony SaaS & music rental platforms at CEO/Executive level; both rated Green — ‘High Velocity & Strategic Alignment’ and ‘Stabilizing & Modernizing’
- **Created Epic Progress Reports (RAG status)** tracking 5 delivery epics per project; maintained Change Management Register (CHG-001 to CHG-003) with risk assessments and RBAC controls

### Security & Compliance Delivery

- **Coordinated 46 VAPT remediations and 600,000+ stale DB record purge** within sprints without disrupting delivery; reduced dependency wait time by ~40%
- **Led 130GB+ production codebase migration to GitHub** with zero disruption; enabled GHAS scanning — resolved 70+ security warnings across client platforms
- **Resolved subscription revenue leak** (Apple/Android Sandbox vs. Live config mismatch); fix deployed Dec 2, securing recurring revenue stream

### AI Innovation & Process Automation

- **Self-initiated AI regression workflow**: ingested 146 KT videos via Claude Video Vision MCP + Gemini Flash — generated 302 validated test scenarios cross-referenced against live GitHub codebase; eliminated 2+ weeks of manual QA effort with zero post-release defects
- **Delivered client document automation**: processed 1,500 records across 23 Excel sheets — automated legal doc segregation, Word file embedding & page count validation; reduced turnaround from 7 days to 2 days (71% efficiency gain)
- **Led org-wide Moodle LMS rollout** across all 7 teams — designed course architecture for Technical, Agile, Compliance (HIPAA/GDPR) & Domain modules; role-based access, automated assessment engine & progress tracking; cut new-hire ramp-up from 3–4 weeks to 10–12 days

- **Served as SM for live healthcare insurance/TPA AI/ML modules** — facilitated Mistral OCR → Cloud LLM → structured JSON pipeline; 200+ claims daily; HIPAA & GDPR compliant
- **Led VLM hosting analysis (Local vs. AWS)** — avoided ₹30L+ CAPEX spend; championed GitHub Copilot adoption with enterprise guide, activity tracking & ROI case to management

### Internal Tool Development & Team Coaching

- **Built & deployed 3 production tools accepted and hosted on Procentris company servers:** (1) Subscription & License Tracker — Node.js/Express/PostgreSQL/Prisma/JWT; tracks 50+ tools, 60-day renewal alerts, prevented ₹3L+ annual license leakage; (2) Employee Exit Checklist — digital offboarding reducing admin overhead 40%; (3) AI-Agent-Suite — 435 autonomous agents across 14 departments; applied GEO/SEO module for US-based client AI visibility analysis
- **Introduced SMART retro action items;** ETA-2 achieved 78 SP in Sprint 6 (highest-ever); conducted structured developer performance analysis — A- rating, Tech Lead recommendation; built SM KRA Dashboard via live Jira data

### Scrum Master | QA Analyst | MSCI

Mar 2022 – Aug 2025

Mumbai, Maharashtra | Financial Data & Analytics

- **Facilitated Scrum ceremonies** for 2 Agile teams (7 & 8 members) — Sprint Planning, Sprint Reviews, Daily Scrums & Retrospectives; collaborated with Product Owners on backlog refinement ensuring on-time delivery
- **Data-driven retrospectives & Kanban WIP limits** boosted velocity 20%, reduced story cycle time 15%; leveraged Jira & Azure DevOps for burndown charts and stakeholder dashboards
- **Integrated QA criteria into Definition of Done** — reduced post-release defects 25%; championed Playwright & Excel VBA automation cutting manual testing by 20%

### Real Estate Data Analyst | MSCI

Feb 2020 – Mar 2021

Mumbai, Maharashtra

- **Facilitated Agile execution for real estate analytics initiatives;** automated data reporting with Excel VBA, achieving 15% efficiency gain
